Bekasi, Indonesia

I am a fresh graduate in Informatics from Gunadarma University with interests in web development, UI/UX, and Human Resources technology. I have hands-on experience in developing web applications and HC dashboards, managing employee and certification data, and creating responsive and user-friendly interfaces. Through academic projects and professional experiences, I have developed strong technical, analytical, and problem-solving skills. I am eager to continue learning, grow professionally, and contribute to building efficient and impactful digital solutions.

Work Experiences

Integrated Laboratory (iLab) Gunadarma University - Depok <i>Lab Assistant</i> - Monitoring practicum students' work - Revise educational modules to ensure they are up-to-date and user-friendly - Develop new practice questions for student assessment	Feb 2023 - Dec 2025
Badan Penyelenggara Jaminan Produk Halal - Jakarta <i>Programmer Internship</i> - Designed and improved the User Interface (UI) of the official BPJPH website using React.js and Gatsby - Managed halal certification data, ensuring accuracy and eliminating duplicate entries before submission to LNSW. - Implemented new features, including the Halal Journal and a microsite for JPH supervisors using PHP, HTML, JavaScript, and CSS - Developed UI for "Kelana", a platform supporting Indonesia's halal business ecosystem	Sep 2024 - Dec 2024
PT Telkom Infrastruktur Indonesia (Infranexia) - Jakarta <i>IT Human Capital Management Internship</i> - Managed employee training administration and participant registration. - Coordinated training programs with participants, vendors, and internal stakeholders. - Prepared HC-related documents, reports, and presentation materials. - Maintained employee data, CV records, and organizational documentation. - Developed a web-based dashboard for employee and training data monitoring.	Oct 2025 - Dec 2025
PT Telkom Infrastruktur Indonesia (Infranexia) - Jakarta <i>IT Human Capital Management Support (Full-time)</i> - Managed contract employee data and maintained accurate HR administrative records. - Prepared employment contracts and supported new employee onboarding processes. - Coordinated employee training and certification programs with participants and vendors. - Assisted in scheduling and managing internal training activities. - Developed an internal HC Dashboard web application using Laravel and PostgreSQL to manage employee, certification, and program data. Implemented features including authentication, data import, dynamic dashboards, and employee management to support efficient Human Capital operations and reporting.	Jan 2026 - Present

Education Level

SMAN 14 Bekasi <i>Senior High School Natural Science</i>	Jul 2018 - Jun 2021
Universitas Gunadarma <i>Bachelor Informatika, 3.92/4.00</i> Conducted undergraduate thesis research on extracting and clustering Kansei emotional attributes from user reviews using POS Tagging, Word2Vec, and K-Means algorithms. The project involved Indonesian text preprocessing, adjective extraction using NLP techniques, sentiment-related feature analysis, vector representation with Word2Vec, and visualization of clustered Kansei attributes for user perception analysis.	Sep 2021 - Aug 2025
Bangkit Academy led by Google, GoTo, and Traveloka <i>Certificate Cloud Computing</i> Developed and deployed backend API services for PsyHeart, a mood-based music recommendation platform, using Node.js, Hapi.js, PostgreSQL, and JWT authentication. Contributed to API development, database management, cloud-based prediction integration, and recommendation system features for music classification based on genre and BPM.	Feb 2024 - Jul 2024
